Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Objections

1. The numbering of claims 25-27 are not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 25-27 have been renumbered 26-28.

Election/Restrictions

2. Newly submitted claims 27-28 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

I. Claims 1-7, 9, 11-16, 19 and 26, drawn to an apparatus, classified in class 219, subclass 685.

II. Claims 27-28, drawn to a method, classified in class 219, subclass 756.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Group I and II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed in Group II can be practiced by another materially different apparatus or by hand, such as, for example: the apparatus having an absorbing piece which does not coupled to and supported by the supporting piece

within the guiding enclosure, or the different apparatuses as claimed in claims 1, 16 and 26.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 27-28 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

4. Claims 1-7, 9, 11-16, 19, and 26 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show or suggest a holder with a top portion contacting a bottom portion of the guiding enclosure to keep the energy from the energy source within the guiding enclosure as recited in claim 1; and the predetermined composition of the absorbing piece includes more than one material, each material capable of absorbing the energy from the energy source at a different absorption rate as recited in claims 16 and 26.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3742

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
